

Continental 
The Future in Motion

**WE TURN MATERIALS
INTO SOLUTIONS**

**Continental Industry as your reliable partner
for industrial rubber and thermoplastics**

**WE ARE A PARTNER DEVELOPING TAILOR
MADE MATERIAL SOLUTIONS TO MEET
YOUR UNIQUE CUSTOMER DEMAND.**

SOLVING YOUR CHALLENGES INTO MATERIAL SOLUTIONS

We are one of the largest industrial rubber and thermoplastic component suppliers for a broad range of industries, including energy management, agriculture, construction, and interior design. Customers rely on us to provide trusted, system-critical, material driven solutions to support their business.

**With our diverse and powerful portfolio, you'll find the
material expertise you need – globally and locally**

We have a global presence with 100 locations in over 40 countries and an unmatched product portfolio, ranging from a wide variety of hoses, conveyor belts, surface solutions, air springs and, power transmission belts, as well as commercial and passenger vehicle components from our Original Equipment Solutions (OESL) business.

3 REASONS YOU CAN COUNT ON US

- 1** **WE LISTEN** to gain a deep understanding of your business needs
- 2** **WE WORK** with you to develop long-term partnerships, focused on cooperation, transparency, and trust
- 3** **WE PROVIDE** material-driven solutions that exceed your expectations

WE CONNECT, CONVEY, AND COVER

WE CONNECT, CONVEY, AND COVER Regardless of the materials utilized or the customers we serve, our solutions are designed to meet daily needs and can also withstand the demands of extreme conditions and challenging requirements. We connect diverse technical components; we safely and efficiently convey raw materials, we cover the surfaces around us in our homes or vehicle interiors according to your needs. We create multi-material and multi-component solutions with great performance and unique characteristics based on our material and technological expertise. That is how we turn materials into solutions – and we do it with passion every day.

We **ALWAYS** think and work **SUSTAINABLY**. That means for us:

- › sustainable solutions from the initial idea to industrialization to minimize CO₂ emissions at every step of the value chain
- › consistent performance and quality
- › a bold culture of learning and innovation to create new solutions and curiously test new materials
- › 100% social sustainability for a pleasant working environment for our colleagues

We always work closely with you and our partners so that they can meet all their requirements for sustainability, quality, safety and functionality.

RESPONSIBLE VALUE CHAIN

CIRCULAR ECONOMY

THE BEST SOLUTION FOR EVERY INDUSTRY

Thanks to many years of experience, we are able to serve the needs of a wide range of industries.

- › Mining and Quarries
- › Construction and Home
- › Energy Management
- › Manufacturing Equipment
- › Chemical Industry
- › Printing Technology
- › Off-Highway Mobility
- › Commercial Vehicles
- › ICE Passenger Vehicles
- › Electric Passenger Vehicles
- › Food and Beverage Industry

ADVANCED DYNAMIC & SUSPENSION SOLUTIONS

With over 1,000 products in vibration damping components and mounts for industrial vehicles and more, we offer a wide range of products. We are an original equipment manufacturer and cross industries partner for the industry.

FOCUS

Components and systems for air suspension and vibration isolation

BENEFITS

- › vibration and noise are minimized effectively
- › smooth running
- › valuable rubber, plastic, and metal compounds
- › premium quality

CONVEYING SOLUTIONS

We develop and produce steel cord, textile, and special conveyor belts and are a development partner with a comprehensive product portfolio.

FOCUS

Advanced belting solutions for heavy loads: baler, draper and specialty belts

BENEFITS

- › customized
- › reliably, efficiently, and environmentally soundly
- › highly available technology to suit any conveyor or transport task
- › premium quality

SURFACE SOLUTIONS

We are an original equipment manufacturer and development partner for high-quality, customized surface materials for industries such as hospitality, health, home, fashion, mobility and energy management. In addition, we have already been awarded the EC Eco-Audit Certificate by the EMAS III Regulation.

FOCUS

Robust surface materials for harsh conditions

BENEFITS

- › home in all OEM fields
- › customized
- › for greater power transmission, better efficiency, and smaller pulley diameters
- › premium quality

FLUID HANDLING SOLUTIONS

With our comprehensive material and process expertise, we are a competent development partner in the field of fluid handling for complete solutions from a single source. We develop hoses and lines with different material compositions and dimensions for your applications.

FOCUS

Industrial and Hydraulic hose, fittings, and assemblies

BENEFITS

- › Solutions for all substance flows and offshore / onshore transfer
- › custom-fit
- › Established in the market
- › premium quality

POWER TRANSMISSION SOLUTIONS

Our products have won multiple awards. As a full-range supplier, specialist, and global market leader for all your needs for high-performance drive belts, we offer you a portfolio of 18.000 products.

FOCUS

Power transmission belts and components (sprockets, etc.)

BENEFITS

- › home in all OEM fields
- › customized
- › for greater power transmission, better efficiency, and smaller pulley diameters
- › premium quality
